OBJECTIVE

Motivated full-stack and backend-focused BCA student with hands-on project experience in web development and AI, seeking an opportunity to work on real-world products in a learning-focused organization. Eager to collaborate with cross-functional teams and grow into a dependable full-stack and backend engineer.

EDUCATION

Course	Year	Institution	Score	Remarks
BCA	2023-26	Chandigarh University, Gharuan	6.56 CGPA	Pursuing
Class XII (CBSE)	2023	Delhi Public School, Saharanpur	60.2%	Passout
Class X (CBSE)	2021	Delhi Public School, Saharanpur	61.33%	Passout

PROJECTS

Task Management System | github.com/NAMANSAINI62/Task-Management-System

- A backend task management system built with Flask and MySQL, featuring JWT authentication and role-based access control (RBAC) for Admin and User roles — enabling secure, structured task operations via REST API.

Super AI Transcript | huggingface.co/spaces/namansaini2867/super-ai-transcript

- An AI-powered Flask app delivering high-accuracy audio transcription using Whisper and intelligent content analysis via Gemini AI — streamlining recordings through local speech-to-text conversion, automated cleaning, and interactive AI-driven insights.

SKILLS & TECHNICAL COMPETENCIES

- Languages: Python, JavaScript, HTML5, CSS3, Tailwind CSS, React
- Backend & APIs: Flask, REST API
- Database: MySQL
- Tools: Git/GitHub, Postman, VSCode

CERTIFICATIONS

- Backend Development and API** – Coursera (Verified: coursera.org/account/accomplishments/verify/8DGS69CKK91U)

ACADEMIC ACHIEVEMENTS & AWARDS

- Hackathon 2025 – Finalist:** Selected as a finalist for the Super AI Transcript project among competing teams.
